

**Electric Winch 220v**

Electric Winch 220v is a kind of lifting hoist, generally divided into household miniature hoist and industrial miniature hoist, it can also be divided into wire rope miniature electric hoist and chain miniature electric hoist. It is called civilian electric hoist. Generally divided into fixed type and operating type, suitable for various occasions, can lift goods under 1000 kg, especially suitable for high-rise buildings to lift heavy objects from downstairs. The structure is simple, easy to install, small and exquisite, and single-phase electricity is used as the power source.

**1、 Introduction of the Electric Winch 220v**

Electric Winch 220v is especially suitable for daily civil and industrial production lines. Electric Winch 220v is widely used in modern industrial production lines, assembly lines, assembly machines, logistics transportation and other occasions such as machinery manufacturing, electronics, automobiles, shipbuilding, work piece assembly, and high-tech industrial zones. For operations in warehouses, docks, ingredients, hanging baskets, and work sites with narrow spaces, it can better demonstrate its excellent quality. It is the best supporting product for fixed column and wall jib cranes. Electric Winch 220v has beautiful appearance, reasonable structure, convenient installation, low noise, safe and reliable use. Therefore, electric Winch 220v is widely used in factories, workshops, homes, warehouses, restaurants, shopping malls, decoration and transportation and other places.

**2、 Product Specification of the Electric Winch 220v**

No .	USAGE	Voltage(V)	Input power(w)	Capacity (kg)	Lifting speed(m/min)	Lifting height(m)
DR-590100100	Single hook	220V/50Hz	480	100	10	10/12/20/30
	Double hook			200	5	5/6/10/15

### 3.Electric Winch 220v Feature And Application

Electric Winch 220v is widely used in factories, workshops, homes, warehouses, restaurants, shopping malls, decoration and transportation and other places. Electric Winch 220v is widely used in modern industrial production lines, assembly lines, assembly machines, logistics transportation and other occasions such as machinery manufacturing, electronics, automobiles, shipbuilding, work piece assembly, and high-tech industrial zones. For operations in warehouses, docks, ingredients,

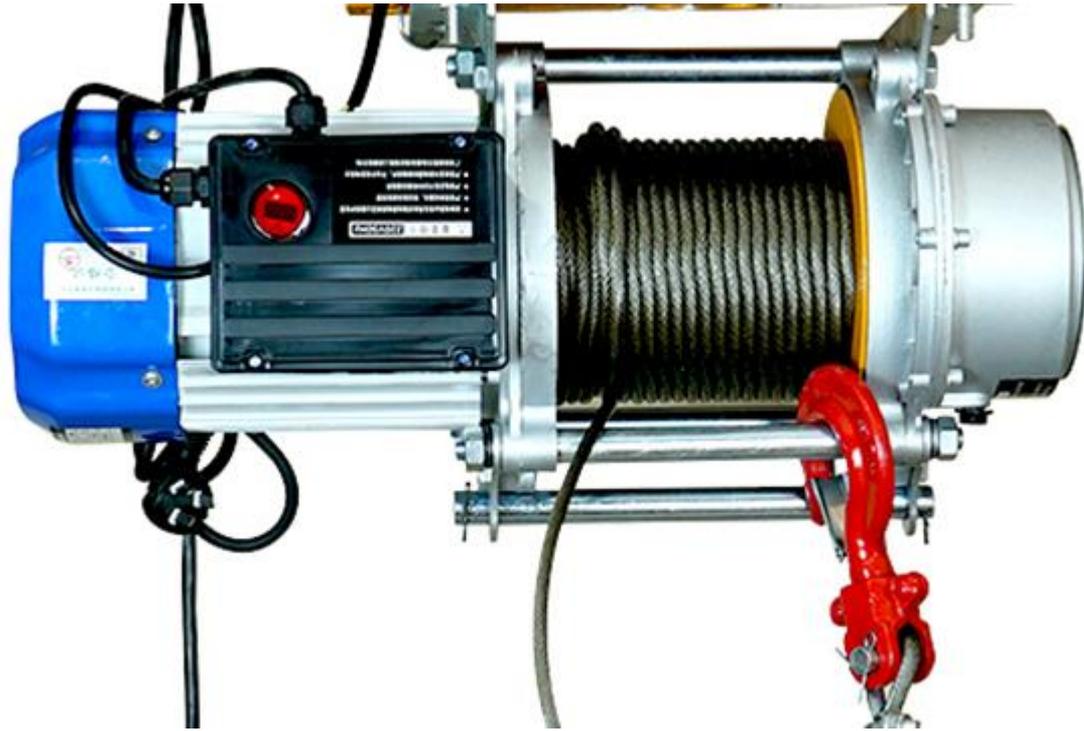

hanging baskets, and work sites with narrow spaces, it can better demonstrate its excellent quality. It is the best supporting product for fixed column and wall jib cranes. Electric Winch 220v has beautiful appearance, reasonable structure, convenient installation, low noise, safe and reliable use. Therefore, Electric Winch 220v is widely used in factories, workshops, homes, warehouses, restaurants, shopping malls, decoration and transportation and other places.

#### 4. Electric Winch 220v Details

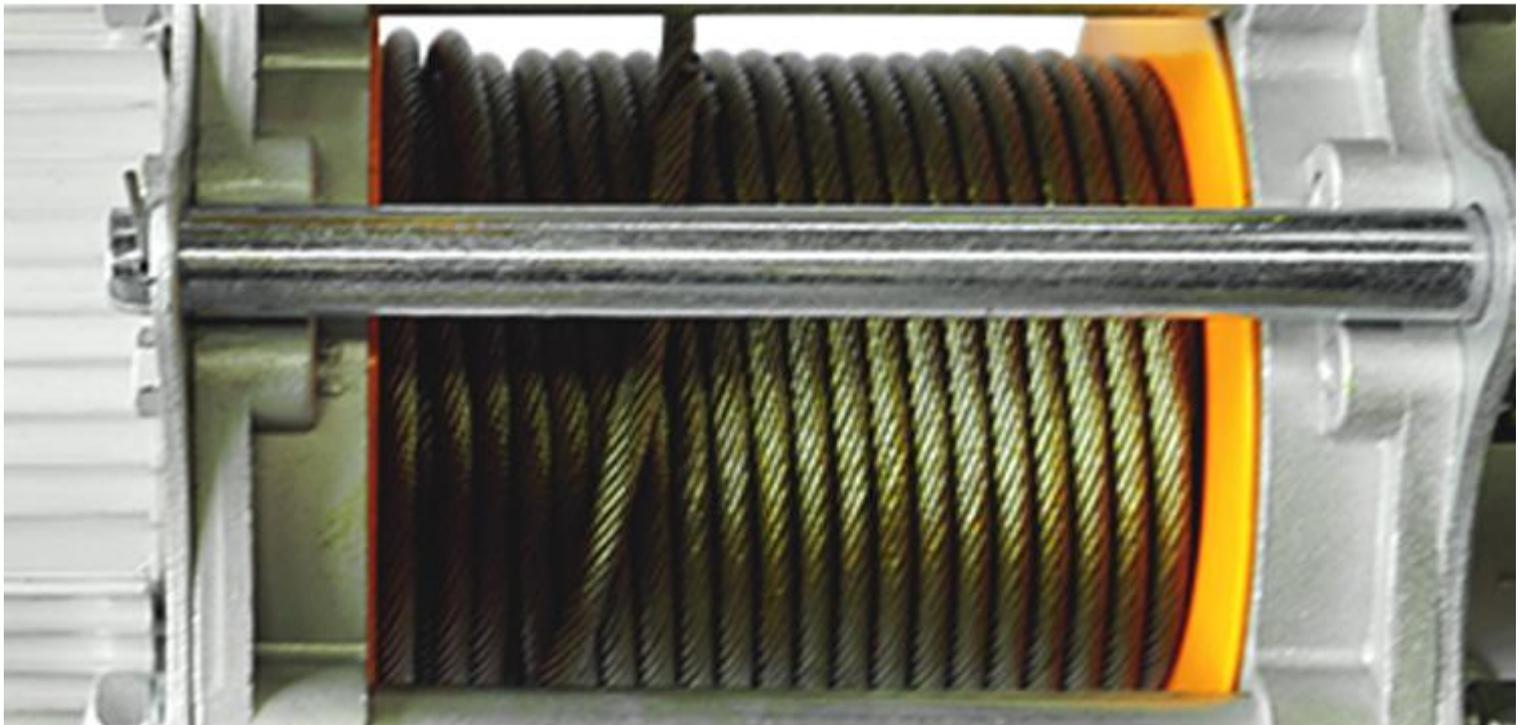

Electric Winch 220v has the advantages of simple structure, convenient installation and small size. It uses single-phase electricity as the power source and can be operated at home with 220 v.

Limit device, control the formation of hoist, limit protection, protect the switch from damage

Electric Winch 220v use Anti rotation wire rope, strong bearing capacity, no fracture

Double cooling, aluminum cooling shell, 8-blade high speed rotating fan

All copper wire motor has longer service life and more stable performance

The handle is waterproof and can be customized for emergency stop switch

## 5、 Product qualification

Shanghai Yiyong Crane Machinery Company is the Electric Winch 220v manufacturer Institute certified. This means we are one of the industry's leading suppliers of hoist equipment. We are reliable and deliver exceptional value.

Shanghai Yiyong Crane machinery Company supply 220v Electric Winch 220v, it is the most popular in Asia ,America and Canada ,It is beautiful ,strong and durable.we promise the electric chain chock warranty is 1 years.and the hand cable is warterproofed,and we really welcome the treaders around the world join in us .

## 6、 Deliver shipping and serving

Electric Winch 220v is packed in a fumigation-free wooden box to ensure that the product is not damaged during transportation. The 1 ton electric chain hoist provides a 2-year warranty, and provides free online consultation for customers, regular follow-up visits, and timely understanding of customers Dynamics and requirements.

## 7、 FAQ

1.When can I know the price?

if all the info confirmed. we must send you the quotation in 1H.

[www.hugoforklift.com](http://www.hugoforklift.com)

2. How about the price? Can you make it cheaper?

The price depends on the item your demand(Shape,size,quantity) Beat quotation after receiving full description of the item you want.

3. Production time?

To most of the items, for regular qty, usually we can finish the goods production in 25-35days

4. What is your payment term?

For stock items, T/T in advance.

For customize order, 30% T/T in advance, balance before shipping.

5. What is the delivery time?

For stock items, send out in 3-7 workdays after payment.

For customized order, we can deliver in 15-25 days. It's based on what's kinds of styles and the quantity.
