

Manual Pallet Lifter

Manual Pallet Lifter also known as hydraulic forklift, is a low-cost, non-polluting, non-powered loading and unloading product. It is compact, flexible and easy to operate. It is widely used in factories, workshops, warehouses, stations and other places. Manual pallet lifter is various wheeled transport vehicles for loading, unloading, stacking, stacking and short-distance transportation of packaged pallet goods. International Organization for Standardization ISO / TC110 is called industrial vehicle. Manual pallet lifter is used to move material from one location to another (e.g., between workplaces, between a loading dock and a storage area, etc.).

1. Introduction of Manual Pallet Lifter

Manual pallet lifter has high quality steel mast which ensures rigidity and durability. High efficiency pumps make control easier to operate. Foot and hand controlled lifting functions allow the operator to work without extreme body movements. The metal mesh protects the user from the chains. With safety guard wheel and braking system to ensure safety during operation. Shaft type forks help to control adjustment better. Manual pallet lifter is more labor-saving when matched with the handle, lifting by stepping on the foot bar. Our product has enhance anti-skid, which will improve comfort and work efficiency. Our manual pallet lifter with safety wheel guard and brake system to ensure safety. High quality steel mast ensures rigidity and durability, and high efficient pumps makes the control easier to operate. Foot and hand controlled lifting function allows the operator to work without having to perform extreme body movements. Manual pallet lifter is suitable for production plants, production workshops, warehouses, stations, docks, airports, etc., especially for sites with fire and explosion-proof requirements, such as printing workshops, various oil depots, chemical warehouses. Manual pallet lifter is an equipment that can be used to lift and lower loads. Generally, this equipment is used to move material that cannot be moved with manual labor, and are tools used in most work environments, such as warehouses, and is a requirement for most construction projects, such as bridges and buildings. This equipment can also be used to equip a larger number of packages and goods, requiring less persons to move material. Lifting equipment includes any form of equipment that is used for vertical lifting, and equipment used to move material horizontally is not considered lifting equipment, nor is equipment designed to support.

2. Product specification:

Product type	Manual lifter	Manual lifter	Manual lifter	Manual lifter
Loading capacity(ton)	0.5	1	1.5	2
Loading center(mm)	400	400	400	400
Wheel type	nylon	nylon	nylon	nylon
Bearing wheel size(mm)	75*42	80*60	80*60	80*60
Steering wheel size(mm)	180*50	180*50	180*50	180*50
Min.fork lowered height(mm)	90	90	90	90
Max.fork lifting height(mm)	1600	1600	1600	1600
Overall fork width(mm)	220-720	220-940	220-940	260-940
Inside width between forks(mm)	20-520	20-740	20-740	20-700
Fork size(mm)	800/100/53	900/100/30	900/100/30	900/120/30
Overall length(mm)	1284	1375	1430	1430

3. Manual Pallet Lifter Feature And Application:

Manual pallet lifter' lifting is fast and labor saving.It can lift 1.5 tons with one hand.75 large swing lifting is easier.The feet step up quickly.Manual pallet lifter wears resistant nylon wheel.It is a pollution-free manual hydraulic lifter, which has the characteristics of smart transportation, flexible operation and small turning radius.Manual pallet lifter is suitable for hypermarkets, production workshops, warehouses, narrow spaces, stations, docks and airports.It can be used in sites with fire and explosion protection requirements, such as printing workshop, various oil depots, chemical warehouse.

4. Manual Pallet Lifter Details:

①Manual Pallet Lifter wears nylon wheels.Nylon wheels can walk on uneven ground.It is cheap and durable.

②Manual Pallet Lifter has reinforced and thicken chain.The chain is smooth and not easy to jam. It is wear-resistant, not easy to break and has high safety factor.

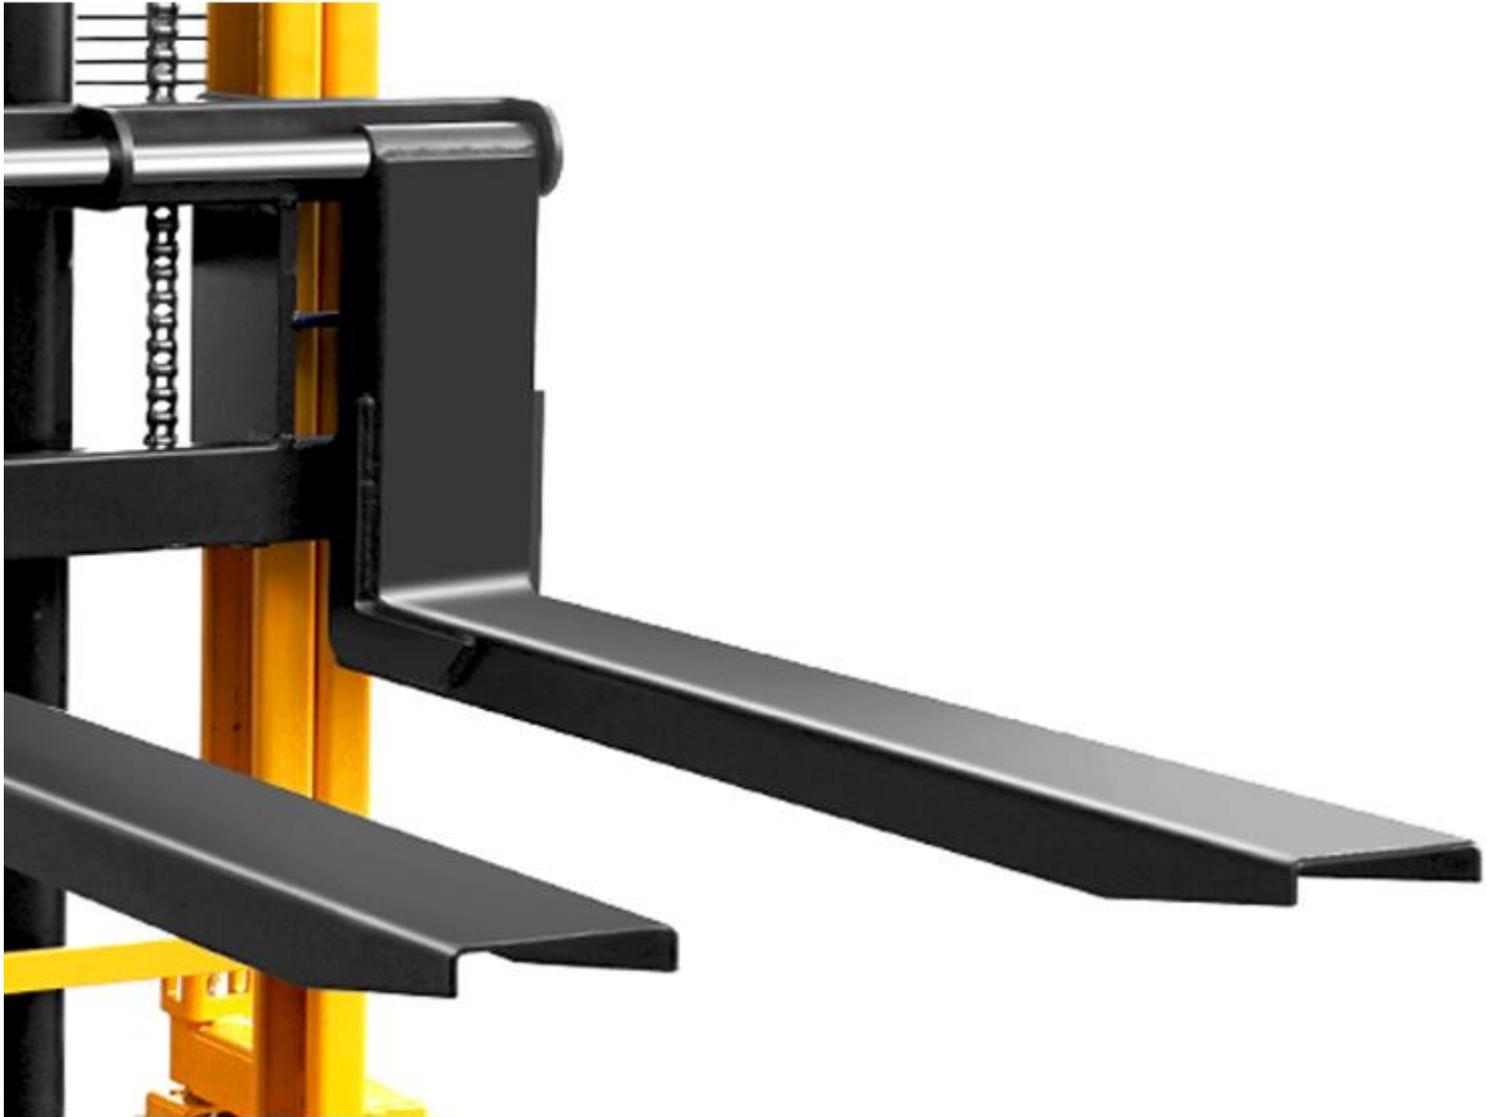

③Manual Pallet Lifter has labor-saving durable oil cylinder.Convenient operation and labor saving.

④ Manual Pallet Lifter has high quality pump. It has integrity oil pump with strong sealing and is not easy to leak oil.

⑤Manual Pallet Lifter has thickened large fork ,therefore it has strong bearing capacity.The adjustable fork is suitable for more pallets.

5. Product qualification:

Shanghai Yiyong Crane Machinery Company is a specialized manufacturer of manual pallet lifter in China. We developed through advanced technology from foreign countries and now have profound experience and intense power. We can provide customers with highly efficient, secure and complete loading, unloading and carrying equipment. Our main products include vehicle hydraulic trail boards, hand pallet trucks, hand stackers, electric stackers, walked hydraulic stackers and hydraulic lift tables. We can develop new products according to customers' demands. 70% of our vehicle hydraulic trail boards are sold to Hong Kong, Macao, Taiwan and other countries and regions. Hugo manual pallet lifter has become the first choice of many famous enterprises and government departments. We are also one of the biggest factories that produce manual pallet lifter in China with an annual production capacity of 100,000 pcs. "YIYING" brand manual pallet lifter passed the CE certifications by TUV in Germany.

6. Deliver,Shipping And Serving

Service:7D*24H after-sale service.

More than 100 professional service staff.

Video tutorials,maintenance,technology consultants,installation guidance are offered.

Accept customized.

Shipping:

7. FAQ

Q: How long is your delivery time?

A: Generally it is 5-10 days if the goods are in stock. or it is 20-25 days if the goods are not in stock, it is according to quantity.

Q:How long have you engaged in this industry?

A:We have been engaged in this industry for more than 30years, Our hot products are manual pallet lifter and hand pallet truck.They are sold at home and abroad by our own foreign trade department and some trading company.

Q3:Which Incoterms terms can we work?

Normally we work on FOB, CFR, CIF

Q4: Are you trade company or manufacturer?

A: We are TUV Rheinland Verified manufacture .Our factory has been specializing in manual pallet lifter, ,hand pallet truck and electric hoist.
